

*Hosting Your Success*

# Partner Program

---

Host1Plus Partner Program is well-suited for businesses looking for innovative ways to provide full range of simple, scalable and easy to manage hosting solutions as well as those seeking to broaden the scope of solutions by introducing our services for their own customer base.

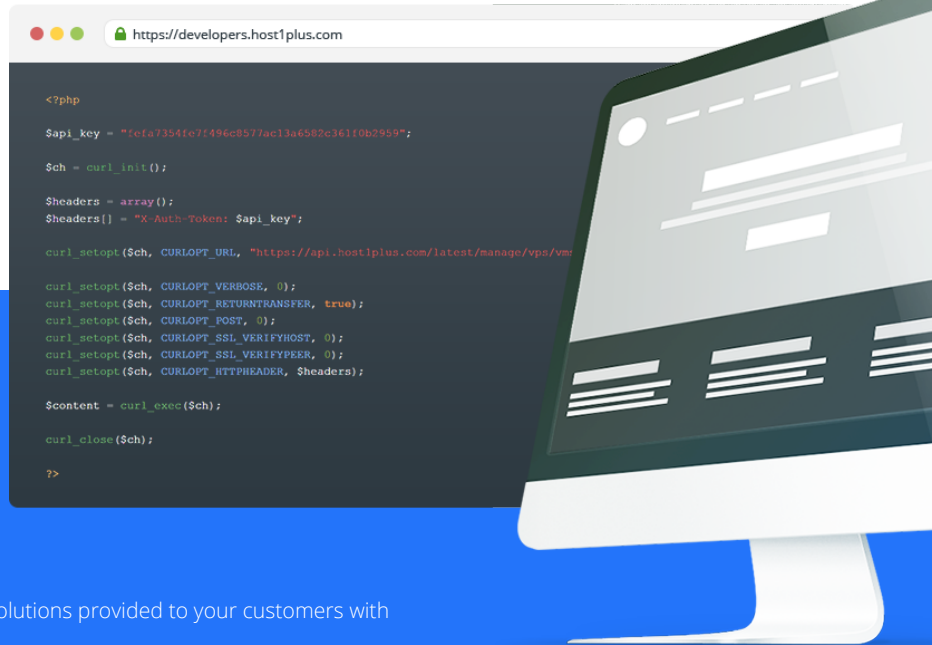

# How Does Partner Program Work?

We provide you with products, WHMCS integration module and API to integrate it to your own already existing client management and billing systems.

## WHMCS Partner Module

Take up a fresh perspective and broaden the range of solutions provided to your customers with our WHMCS partner module. Well documented partner module will ease up integration process as well as provide you with full control to sell and manage our reliable solutions as your own.

# Cloud Servers

Cloud empowers you with the compute resources right when you need them - whether it is more storage for customer, product data, increased compute power for data analytics or engineering programs. Running in the cloud means running without constraints.

## All Cloud Plans include

- Intel® Xeon® E5 v3 processors
- DDR4 error correcting-code RAM
- Up to 32 IPv4 addresses
- KVM virtualization technology
- IPv6 support
- 10G network
- 1 free IPv4
- API

## Linux OS Resources

- CPU:** 2 - 8 Cores
- RAM:** 2048 - 65536 MB RAM
- HDD:** 40 - 1000 GB + 8 Additional Disks up to 1 TB each
- Bandwidth:** 1 - 100 TB
- IP's:** 1 - 32
- Backups:** 0 - 5

## Windows OS Resources

- CPU:** 2 - 8 Cores
- RAM:** 4096 - 65536 MB RAM
- HDD:** 50 - 1000 GB + 8 Additional Disks up to 1 TB each
- Bandwidth:** 1 - 100 TB
- IP's:** 1 - 32
- Backups:** 0 - 5

## Cloud Servers Features

- IPv4 & IPv6
- Highly scalable
- Scheduled & manual backups
- Instant provisioning
- Custom ISO
- Pre-installed templates
- Rescue mode
- VNC Console
- SSH Keys
- DNS management
- rDNS functionality
- Live Stats

# Partner Program Tiers

## All Tiers include

- Unlimited Scalability
- No Hardware Maintenance
- Flexible Contracts
- IPv6 Support
- Required Amount of IPv4
- Multi-Region Locations

# Key Benefits

## Volume-Based Discounts

Customize and sell Host1Plus solutions to your customers. Receive generous discounts for all active services to minimize your costs and gain competitive advantage in the market.

## Priority Support

Your ticket or support call is put to the front of the line, thus you get help when you need it the most. Save your time for business development instead of waiting in the queue to deal with minor issues.

## Personal Manager

Reach out to your account manager with any inquiries you have - we make sure that all your questions are answered and all requests are executed in a timely manner.

## White Label

Create, store and deploy unlimited virtual environments under your own brand and offer tailored solutions for your customers.

## Custom OS templates

Create your own OS templates for deployment. Templates may include customization, software packages, security templates or other components.

## Custom API Calls

Each business has unique environment in terms of market, vendors, and operation methods. This diversity often calls for customization of the API & we promise to develop custom API solutions for your business.
