Host 1 Plus

Hosting Your Success

Virtuozzo VPS

—

Virtuozzo Servers are designed to bring maximum stability and the highest levels of performance in order to meet the most demanding business requirements.

Product Overview
—

Host1Plus Virtuozzo VPS is a scalable, enterprise-grade Linux container solution. Based on a 15-year track record in development and powering more than 5 million virtual environments across the globe, Virtuozzo has been instrumental in container technology adoption by the enterprises. Flexible resource management, quick incremental backups and restores, competitive pricing and fully featured Linux environment places Host1Plus Virtuozzo right between micro-containers and hypervisor-based solutions.

Why Host1Plus Virtuozzo VPS?

Host1Plus Virtuozzo's open-source core OpenVZ™ has been the cornerstone of an early Host1Plus success. Field-proven with tens of thousands of containers, it is now at the latest business-oriented incarnation – Virtuozzo 7. Powered by public API, Host1Plus Virtuozzo solution allows enterprises to seamlessly integrate container lifecycle management into their own processes.

With a rich application ecosystem, Host1Plus Virtuozzo VPS Linux containers are a sure fit for SaaS application and shared hosting, providing a cost-sensitive alternative to hypervisor VMs.

Key Features and Benefits

Operating systems

> Latest Linux distributions and their previous version

Storage

> Highly available distributed storage

> Up to 1TB data disk

> No I/O cap

Backups

> Super-fast scheduled incremental backups

CPU:	2 - 8 Cores	**Bandwidth:**	1 - 12 TB
RAM:	2048 - 16384 MB RAM	**IP's:**	1 - 8
HDD:	40 - 1000 GB	**Backups:**	0 - 5

Locations

> **Chicago,** United States
> **Los Angeles,** United States
> **São Paulo,** Brazil
> **Frankfurt,** Germany
> **Johannesburg,** South Africa

Use Cases

—

Independent Software Vendors (ISV)

Be part of a large application eco-system built for Virtuozzo Containers. If you need to deploy secure, multi-tenant SaaS platforms, Host1Plus Virtuozzo is the most suitable platform for the task.

Hosting Companies

Whenever you want to introduce new products to your portfolio or expand available locations globally, Host1Plus Enterprise Cloud is an API call away. We know what it takes to be a successful hosting company, that is why we provide a public API built by developers for developers. In addition, we provide a plug and play WHMCS partner module, allowing you to take full control over the pricing and billing.

Cyber Security Companies

Flexible, geo-located and blacklist free IP spaces with instant availability in all IP network regions, including RIPE, LACNIC, ARIN, APNIC, and AFRINIC.
